

METAL TILES

Rest assured that when you choose a Metal Tile from Metalcraft Roofing you choose a product that is manufactured from COLORSTEEL® MAXAM®.

For over 60 years, Metalcraft Roofing has been sheltering families from New Zealand's extreme environment. Our long-standing history and solid material warranties, backed by New Zealand Steel, give you assurance of quality and peace of mind, knowing that your new metal tile roof will endure for many years to come.

A typical lightweight metal tile weighs just 1/16th of the weight of a conventional tile. This reduces the amount of timber required to reinforce your roof trusses, providing considerable cost savings in design and materials.

Re-roofing is a great way to refresh the look of your home and preserve its value whilst protecting your investment.

Metalcraft offers expert advice and specialised knowledge regarding re-roofing, so you can be assured of a quality job and outstanding workmanship. We will carefully assess your roof and advise you of the best and most economical course of action.

Metalcraft strives to conduct all work promptly and diligently to minimise any inconvenience and disruption to your daily life, and we always endeavour to ensure you are completely satisfied with the end result.

# PROFILES

Metalcraft Metal Tiles are designed to withstand environmental extremes, so they afford considerable peace of mind.

The interlock and overlap panels unique to metal tiles are secured in place with a horizontal fixing system. Fastenings are situated at 90 degrees to the tile surface, providing resistance to wind lift from hurricane-force winds and earthquakes. They are also highly resistant to storm damage in the form of hail, and although they may dent, they will not crack or leak as a result of hail contact.

## CHATEAU

---

### 12 degrees pitch, min.

Scalloped finish for a timeless look to any style home.

Prepainted or stonechip finish.

Complemented by a range of flashing and trim options.

## TRIMS & FLASHINGS

Trims are used on hip, ridges and gables and are compatible with all roof tiles, however it is important to inform your sales rep which you prefer as soon as you can.

FOLDED RIDGE/HIP

RIDGE CAP

FOLDED BARGE/GABLE

FOLDED Z - FLASHING

FOLDED VALLEY

## RECYCLABLE

Steel is a recyclable product, so you can be confident in the knowledge that it does not have to be disposed of in landfill. Instead it can easily be recycled and reused, thereby minimising resource use and reducing impact on our environment.

# COLOURS

## COLOUR OPTIONS

---

Colours throughout this brochure are only as close as normal printing processes allow, before you make your final colour selection check actual colour samples with your local Metalcraft branch. Colours in brackets indicate COLORSTEEL® MAXAM® equivalent for matching fascia and spouting.
